

Samskapa - Evidence-based coproduction

14th May, 15.00 to 16.30 (CET), 9.00-10.30 (EST)

Online on zoom

Join Us for a session of insights and dialogue!

Join us to get an overview of current important research questions related to co-production. Together we take on a journey where we present the latest research and practice based lessons from a six year research program - SAMSKAPA.

In this interactive session there will be ample opportunity for you to explore the vast world of co-production and how research can contribute on your co-production endeavours.

Event Agenda

Block 1 - lessons from theory*:

Presentation of 5 literature reviews which explores the definitions of co-production, mechanisms, management, measurement and models.

Block 2 - lessons from practice*:

Presentations of case studies highlighting how you can translate theory to practice and the lessons learned from these efforts.

Block 3 Future research implications*:

What research questions still need attention
- what can we do together?

**Each block includes time for dialogue.*

You will get:

- An overview of the latest research on co-production.
- Practical lessons and inspiration for how to co-produce in your own setting.
- Get an understanding of current research gaps that needs attention in coming research efforts.
